Contact your Member of Parliament and demand they put a stop to the SPP/NAU

Sign our SPP Petition and Call for Full Disclosure and Referendum

Join the Canadian Action Party in demanding that before the next election Prime Minister Stephen Harper ask the Canadian people if they want a Security and Prosperity Partnership (SPP) with the United States and Mexico. This is far too important to the future of Canada to be left to an unrepresentative Parliament and must be put to the People in a referendum!

The Canadian Action Party rejects the call by the NDP and some non-governmental organizations for a vote in Parliament regarding the end of Canada as we know it.

Calling for a parliamentary vote on the essence of Canada in this Parliament is to be complicit in Canada's demise.

Integration of Canadian with American armed forces in NORTHCOM has already been approved without reference to Parliament!

A decision about the restructuring of Canada into an intergrated North American Union with a common currency is a decision for the citizens of Canada not a minority government with an ineffective opposition.

Save Canada

Say NO to the North American Union

Say YES to sovereignty!

The nation is in distress.

Security and Prosperity Partnership (SPP)

Former Prime Minister Paul Martin, George W. Bush and former President of Mexico, Vicente Fox signed the SPP agreement in Waco, Texas in 2005.

This is not a Liberal or Conservative, agenda, they clearly share the same objective. This agreement is the idea of the Canadian Council of Chief Executives(CCCE) - a not for profit organization composed of Canada's most powerful CEOs and the Council on Foreign Relations(CFR) - a think tank which steers the U.S. on foreign- policy issues.

The SPP is the hostile take over of Canada, the U.S. and Mexico by the Corporate and financial elite. It is the frame work for a North American Union(NAU) we never asked for.

Stephen Harper has castrated the Canadian people of our Freedom to democratically choose whether or not we want our great nation to be merged financially, politically and militarily with the U.S. and Mexico

It is very important that Canadians understand that this NAU is not being implemented by our elected officials, but rather by the corporate and financial elite.

Some of the Players & their quotes

"The U.S. Congress should also merge the U.S.- Mexican and U.S. - Canadian interparliamentary groups into a single "North American Parliamentary group"...A permanent court would permit the accumulation of precedent and lay the ground work for North American business law."

" The U.S., Mexican and Canadian governments remain zealous defenders of an outdated conception of sovereignty even though their citizens are ready for a new approach."

- Dr. Robert A Pastor VP of International Relations at American University

Sovereignty is complete independence and self government, a territory existing as an independent state.

Do you recall voting on a North American court?

Dr. Pastor along with John P. Manley, was a signatory of a document called "Building a North American Community", sponsored by the Council on Foreign Relations. You can read the document at www.cfr.org. On page 24 the first paragraph is an admission of the SPP agreement, having been signed in Texas in 2005.

But the White House website www.spp.gov claims on its Myths vs Facts page that no such agreement was signed. Someone is lying.

The North American Competitiveness Council (NACC)

The NACC is a non-governmental organization which consists of 30 multinational business corporations that advise SPP and set the action agenda for its trilateral bureaucratic working groups.

Here are some members:

Manulife Financial

Power Corporation of Canada

Richard George, Suncor Energy Inc.
